EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

Page 13, line 5, "peering" was deleted and --peeling-- was inserted therein.

Page 13, line 6, "peering" was deleted and --peeling-- was inserted therein.

The following is an examiner's statement of reasons for allowance: None of the prior art shows or suggests a label peeling mechanism with a first support frame, a second support frame detachably connected to the first support frame, and a discharge frame pivotally mounted on the second support frame along with the additionally claimed elements on each of the three frames. Newly cited references to Bruhnke et al. and Mistyurik et al. each show slack preventing mechanisms on a movable frame. Newly cited references to Li and Brough et al. each show support frames in a label peeler that are detachably connected to each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
